About Me: Web developer with fresh and expanding knowledge of new technology. Looking to apply recent training to a career where I can continue passionately learning and creating. Focused and dedicated to making my work the best it can be.

My Skills:

JavaScript/ES6, React, CSS, , JSON Web Tokens, Axios, CRUD, Express, Mongo DB, Node.js, HTML 5 / Canvas, Grid / Flexbox, Adobe Illustrator, SVG / SVG animation, Google Sheets, Microsoft Excel

Web Development Projects:

TIE- An app designed for coaches to log in and create/edit rosters and inventory lists for their teams. As they issue inventory to players, they record it here. It implements charts and visuals to make all information easily seen and accessible.

Built with: all skills listed above

Criddle's Cafe- A soon to be deployed interactive business website created for a privately owned restaurant.

Built with: JavaScript, React, Axios, Git, Express, Mongo DB, Node.js, HTML 5, CSS Grid, Illustrator, SVG

Sketched- SPA designed as a drawing game where users are given a chance to draw an original and creative scene including assigned randomized items. They can draw on an HTML canvas that I built into the app.

Built with: JavaScript, React, Express, Axios to call 3rd party API, Gif from Giffy, HTML canvas in a React component

Periodic Table- An interactive periodic table utilizing CSS grid and grid areas where the user can isolate elements to expand them and learn more.

Built with: CSS grid, React, conditional rendering, JavaScript

Education:

Weber State University 2005-2009 (studied Spanish, Zoology, Chemistry)

V School Full Stack Web Development 2019

Job History:

High School Football Coach for Weber School District 2008-present

As the defensive coordinator I am in charge of the players and coaching staff for the defense, which requires that I demonstrate and maintain a sense of leadership.

- I compile and analyze large amounts of data collected from game films and use that data to formulate a defensive game plan.
- I implement effective teaching skills in order to translate and present my findings to players and coaches so that they understand the data and can effectively execute the game plan.
- I'm often listening to players and other coaches to understand their perspective as well as finding ways to help them see my perspective so that we are a cohesive team.

Bench Jeweler/Jewelry Designer at Belliston Jewelry 2005-2016

- Managed and maintained the Repair Department where I completed an average of 10 repairs/day.
- Designed and created custom jewelry from start to finish based on customer specifications.
